VISVESVARAYA TECHNOLOGICAL UNIVERSITY

"JnanaSangama", Belgaum -590014, Karnataka.

LAB REPORT on

BIG DATA ANALYTICS LAB

Submitted by

YATHRI M (1BM21CS416)

in partial fulfillment for the award of the degree of BACHELOR OF ENGINEERING
in
COMPUTER SCIENCE AND ENGINEERING

B.M.S. COLLEGE OF ENGINEERING
(Autonomous Institution under VTU)
BENGALURU-560019
May-2023 to July-2023

B. M. S. College of Engineering,

Bull Temple Road, Bangalore 560019

(Affiliated To Visvesvaraya Technological University, Belgaum)

Department of Computer Science and Engineering

CERTIFICATE

This is to certify that the Lab work entitled "BIG DATA ANALYTICS LAB" carried out by **YATHRI M** (**1BM21CS416**), who is bonafide student of **B. M. S. College of Engineering.** It is in partial fulfillment for the award of **Bachelor of Engineering in Computer Science and Engineering** of the Visvesvaraya Technological University, Belgaum during the year 2023. The Lab report has been approved as it satisfies the academic requirements in respect of a **YATHRI M** - (**20CS6PEBDA**) work prescribed for the said degree.

Dr. Manjunath D R Assistant Professor Department of CSE BMSCE, Bengaluru **Dr. Jyothi S Nayak**Professor and Head
Department of CSE
BMSCE, Bengaluru

Index Sheet

Sl. No.	Experiment Title	Page No.
1	Create a Data set either structured/Semi-Structured/Unstructured from twitter/Facebook etc. to perform various DB operations using Cassandra.	1
2	Create a Data set either structured/Semi-Structured/Unstructured from twitter/Facebook etc. to perform various DB operations using Cassandra.	3
3	Mongo DB CRUD Operations	5
4	Hadoop Installation	9
5	Execution of HDFS Commands for interaction with Hadoop Environment.	11
6	Create a Map Reduce program to a) find average temperature for each year from NCDC data set. b) find the mean max temperature for every month	13
7	Create a Map Reduce program to sort the content in an alphabetic order listing only top 10 maximum occurrences of words.	18
8	Create a Map Reduce program to combine information from the users file along with Information from the posts file by using the concept of join and display user_id, Reputation and Score.	23
9	Program to print word count on scala shell and print "Hello world" on scala IDE	32
10	Using RDD and FlaMap count how many times each word appears in a file and write out a list of words whose count is strictly greater than 4 using Spark.	33

Course Outcome

CO1	Apply the concept of NoSQL, Hadoop or Spark for a given task
CO2	Apply the concept of NoSQL, Hadoop or Spark for a given task
CO3	Apply the concept of NoSQL, Hadoop or Spark for a given task

Program 1: Create a Data set either structured/Semi-Structured/Unstructured from twitter/Facebook etc. to perform various DB operations using Cassandra.
